EDUCATION

Sanjivani University <i>Bachelor of Technology in Computer Science</i>	2024-Present
Swami Muktanand Jr College - HSC	April 2024
DePaul English Medium School - SSC	2022

PROJECTS

OpenModelica | Python, PyQt6, OMEdit, OMCompiler

- Built and simulated system models using Modelica language
- Analyzed system behavior through simulation outputs
- Worked with OpenModelica tools like OMEdit and OMCompiler

SmartGuide | Python, REST APIs, Git, HTML&CSS

- Built an AI-powered system to automate event planning workflows using LLM
- Implemented validation and error-handling for reliable automation

SmartCam | React+CSS, SQLiteAI, rPPG(Module)

- Built real-time health monitoring using webcam data
- Used computer vision to detect posture and fatigue
- Combined signals into a single health score

ACHIEVEMENTS

- Participated in INNOYUDH 2025 – 24-hour National Level Hackathon
- Participated in KURUKSHETRA 2025 – 24-hour National Level Hackathon
- Actively participated in multiple hackathons and ideathons, gaining experience in problem-solving and teamwork

CERTIFICATIONS

- NPTEL – Joy of Computing using Python
- NPTEL – Learning Analytical Tools

Core Java Training

-Completed hands-on training in object-oriented programming

July–August 2025

LEADERSHIP & EXPERIENCE

~Training & Placement Coordinator

Sanjivani University

April 2026 – Present

TECHNICAL SKILLS

Programming Languages: Core Java, Python, C++, HTML/CSS

Developer Tools: Git, Visual Studio Code, Android Studio

Framework: Django, Flask

Libraries: Matplotlib

Languages

- English: Native Proficiency
- Marathi: Native Proficiency
- Japanese: Intermediate
